Enable item eo	nable item editing	
FAMILIES	AILIES	
Enable family a	access	
Invite families		>
Manage famili	es	
Pending family	/ approvals	>
Family likes, co	omments and sharing	>
CLASS BLOG		

Here you can see "students with connected families" and you can scroll down to see "students with no connected families'

Click "view sample email"

This generates text which you can copy and paste into an email to send to parents.

Note that when parents use the link in the email, you need to approve them (which you do not need to do with the QR code you gave out at PTI). **They will show up in your inbox for approval-you can also check in the class settings**
