

IXL Foundations I

Professional learning session agenda (90 minutes)

Intro to IXL

- Intro to IXL's end-to-end teaching and learning solution
 - Comprehensive pre-K through 12 curriculum; instructional tools and classroom engagement resources; first-of-its-kind assessment suite; actionable analytics; and district partnership, professional learning, and implementation services
- Basic navigation

IXL Real-Time Diagnostic

- How the IXL Real-Time Diagnostic supports personalized learning in your classroom
- Launching students in the Real-Time Diagnostic
- Interpreting insights from the Real-Time Diagnostic
- Using insights from the Real-Time Diagnostic to drive student next steps

IXL skills

- Anatomy of a skill: what students see when they work in a skill on IXL
- Understanding the IXL SmartScore
- Strategies for setting SmartScore goals and using the SmartScore to motivate students
- Instructional resources

IXL for Daily Instruction

- Plan your lesson
 - Ways to find skills that support any lesson or learning objective: grades view, skill plans
- Deliver your lesson
 - Assigning skills for independent practice: suggested skills, sharing options, permanent skill ID
 - Group Jams: an exciting way to teach and review concepts as a class
- Monitor student progress
 - Monitor progress using Live Classroom
 - Support students in the moment with Live Message

Mobile apps and Teacher Resources

- Engaging students with IXL's mobile apps
- Accessing additional resources to support your IXL implementation
