

# YCIS Pudong – Regency Park Campus Cafeteria Renovation Project

This summer, the Regency Park Campus Cafeteria will be undergoing a major renovation in preparation for the 2019-20 academic year. The upgraded space will provide an enhanced dining experience for our students and a new gathering space for our parents!

## Major Developments:

### Renovation of the Dining Area

The dining area will be refitted with new ceilings, flooring, lights, tables, and chairs to enhance the dining experience for our students.

### Expansion of the Cafeteria

A wall will be partially removed to facilitate the creation of a new café where parents can gather to meet and relax.

### Additional Service Line

An extra service station will be added to the serving area to reduce waiting time for students.

### Enlarged Kitchen

The preparation and cooking space in the kitchen will be expanded to allow our food caterer, Chartwells, to provide a greater variety of food options for our students, faculty, and staff.

We look forward to welcoming you to our new and improved Regency Park Campus Cafeteria in August 2019-20.
